

# CHOOSING THE BEST LENS FOR YOU

## OPTION 1: DISTANCE ONLY

Use of a **monofocal lens** that corrects vision at distance

- Will likely need glasses for intermediate and near activities: reading, phone, computer, dashboard
- No astigmatism correction; no range of vision

*Covered by insurance*

## OPTION 2: ASTIGMATISM CORRECTION

**Toric lens** that provides enhanced clarity at a distance

- Will likely need glasses for intermediate and near activities
- Reduces dependence on glasses

*\$1,500 per eye*

## OPTION 3: PRESBYOPIA CORRECTION

**Trifocal lens** provides a range of vision at multiple focal points: near, intermediate and distance

- Includes astigmatism correction if necessary
- Significantly reduces dependence on glasses at all distances

*\$2,500 per eye*
